

NEW! PCS 950 *win*

The successor of the proven control panel PCS 950

The PCS950 has done many years of excellent service for the manufacturing of a wide range of mesh products. A technical updated successor model will now exchange this proven control panel.

The new PCS950 *win* control panel is a fully compatible exchange for its predecessor and 1 to 1 exchangeable. The PCS950 *win* offers all functionality of its predecessor and has been adapted to the latest technology in terms of control concepts and PLC solutions.
