

To our customers

Schlieren, December 2010 / Jac

Discontinuation of drive technology by supplier Indramat GmbH

To whom it may concern

We would hereby like to inform you of the discontinuation of Indramat components that you have purchased in connection with a Schlatter resistance welding machine.

For more than two decades, our plants and machines were successfully equipped with the drive technology of manufacturer Indramat GmbH.

The supplier has now discontinued part of the product range as of 31 December 2011. Until then, spare parts supply and repairs are guaranteed.

We hereby inform you which components are being discontinued and how you as the operator of a machine thus affected can ensure production safety of your welding plant in the future.

The following products are being discontinued:

- Suppliers **TVD, TVM**
- Controllers **DDS, TDM, DKC1.1/11.1**
- Servo drives **MAC, MDD**
- Controls **CLC, CLM**
- Accessories **MOD, NAM1.3, TCM, TBM, CZ**

1 Successor products

The number of discontinued components and the combination of components in a plant determine what alternative solutions there are. The options include everything from the simple replacement of the current drive technology with up-to-date digital drive technology (IndraDrive) to exchanging the entire drive unit (supplier, controller, servo drive, controls and if necessary accessories). We are happy to provide you with a customised solution.

2 Measures

Please check the plants and machines you are using. Our Helpdesk staff will be happy to help you. We will gladly make you an offer that meets your specific wishes and needs. You may use the enclosed form to contact us.

3 Exchange by Schlatter service technicians

The components are exchanged within a very short period of time by our qualified service technicians. This ensures that the plant's downtime is kept to a minimum and that it works properly after the conversion.

If you need any more information, please do not hesitate to contact us.

To request an offer or place an order, please contact our Helpdesk on Tel +41 (0)44 732 74 20, send a fax to +41 (0)44 732 71 20 or send an email to service@schlattergroup.com.

With best regards,
Schlatter Industries AG
